

## Retinal Exam

In our continued effort to bring the most advanced technology available to our patients **we now perform the**

### **optomap<sup>®</sup> Retinal Exam**

**WITH ALL OUR PATIENTS.** This non-invasive procedure allows Dr. Chandler to see a much broader and more detailed view of the retina than is possible with conventional methods.

When reviewed, the scan becomes a permanent part of your medical file, enabling us to make important comparisons should potential vision threatening conditions show themselves at a future examination.

**Dr. Chandler feels that the optomap<sup>®</sup> Retinal Exam is an essential part of your comprehensive eye exam and performs it on all patients at their examination.**

As part of your pre-test work up our technicians will capture **optomap<sup>®</sup>** images for the Doctor to review during your examination.

The **\$29** cost for this procedure is a non-covered service by your vision or medical plan and is an out-of-pocket expense payable on the day of your exam. You may include this cost, along with any other services or materials not covered by your insurance, in our **interest free payment plan**, allowing you interest free credit over a three month period.

Any questions you have about the **optomap<sup>®</sup>** Retinal Exam should be directed to our staff at the beginning of your exam.
