

ATTENTION!

You MUST bring this paperwork , fully completed, with you to your exam

Sorry, but governmental, insurance and legal considerations in today's medical environment require the necessity of more paperwork than ever. And, because eye care (more than any other primary care group) is technology driven, you have to be made aware of your coverage and expected out-of-pocket expenses ahead of time.

We will likely have to reschedule your appointment if you arrive without the completed paperwork
