

---

### ATTENTION!

You **MUST** bring these medical forms in with you to your exam.

They must be completed **BEFORE** you arrive for your exam.

Failure to do so may result in us having to reschedule your appointment, or you having a long waiting period.

We are very sorry, but governmental, insurance and legal considerations in today's medical environment require more forms than ever to be completed.

Also, eye care is an extremely technologically driven medical specialty which makes us responsible to notify you of any potential non-covered, out-of-pocket expenses ahead of time.

Please realize we do not ask for these forms to be completed unnecessarily. They are an integral part of your medical care and completely necessary for us to care for you appropriately.

*“Thank you so much for your cooperation and understanding”*

*Drs. David &  
Chelsea Chandler*

---

## HERE ARE SOME CHANGES IN OUR OFFICE SINCE YOUR LAST EXAM:

### Eliminating wait time

- We are in the process of completely eliminating wait time.
- Thus, the necessity of bringing your completed paperwork with you.

### Optomaps performed at all comprehensive eye exams

- Dr. Chandler is now obtaining optomaps on all capable patients during comprehensive exams.
- Insurance does not cover the cost of this important procedure.
- So your out-of-pocket costs will be **\$29**. Details included in the Optomap form in this packet..

### Open Access Providers for Davis Vision, Spectera and others

- We are now open access providers for almost all vision plans.
- Please ask our staff if you have any questions about a plan.

### Automated communication

- We now have automated appointment reminders coming to you via text and email.
- You can now confirm on smartphone or email.

### Macular Degeneration Center of Excellence

- We now have the best preventative, diagnostic and treatment plans available for MD.
- These can help stem the tide of this number one cause of sight loss in America.
- We have the newest diagnostic technology for the earliest diagnosis and treatment available.

### A pill to make you see better?

- Yes, it is true! Carotenoid supplements help eliminate glare and increase contrast sensitivity.
- When these two occur, subjective vision improves! More from Dr. Chandler at your exam.

### Indestructible, feather weight frames by OVVO

- This is the most unique frame line in the world.
- Almost indestructible, high fashion and extremely light weight and comfortable
- The best frame made, in our opinion.

### Trunk shows

- Save between 30-50% on sunwear and 20-40% savings on prescription eyewear.
- Manufacturers bring their entire frame and sunglass lines for you to choose from.
- Watch for a notice of the next show. We schedule on every 6 months.
